

RESEARCH AT JBN

JBN is actively involved in research through clinical trials conducted in cooperation with several pharmaceutical companies.

Research studies are carried out by a team of dedicated people including the physicians, nurses, study coordinators and most importantly the patient. You may help to develop new treatments or to broaden the indication for currently available treatments. You may also aid in the improvement of the standard of care for patients in the future.

For more information please contact

JBN Clinical Trials at

ABOUT JBN

JBN MEDICAL

SPECIALTY HEALTH CLINICS
SPECIALIST CARE

Improving your odds in the fight
against disease...

905.331.3101

JBN Medical

is a privately owned medical clinic that provides specialist medical care.

JBN specialists are a valuable asset to the community. Currently, we offer care in:

- Internal Medicine:
 - Dr. William Nisker, Geriatrics
 - Dr. Joseph Berlingieri, Critical Care
- Allergy, Asthma and Immunology:
 - Dr. Michael Cyr
 - Dr. Mary Messieh

All appointments require a medical referral, with exception for 3rd party services. Physicians work with a highly skilled and well trained team of medical and clerical support staff. Come and visit www.jbnmedical.com to meet our staff and learn more about our facility.

Use of Electronic Medical Records places JBN on the cutting edge of technology, improving our efficiency and accuracy.

SPECIALTY HEALTH CLINICS

JBN has developed a number of Specialty Health Clinics aimed at managing various medical conditions. Professional care is provided by the Specialists and our highly trained team of medical support staff of Certified Cardiovascular Technicians and Registered Nurses.

We have impact on our community by improving the quality of medical care.

Our clinics are available to all patients who require assessment, management, education or therapeutic evaluation. Referral by a family doctor is required.

Call 905.331.3976 for more information.

Currently available JBN Health Clinics

- **Memory Health Clinic**—for patients with all conditions associated with memory loss.
- **Bone Health Clinic**—for patients with osteoporosis and related problems.
- **Vascular and Diabetic Health Clinic**—aimed at reducing the patient's risk for heart attack and stroke, designed to improve diabetic care through patient education.
- **Pounds for Health Clinic , medical weight management** —for patients whose weight puts them at risk for medical complications (pharmacologically assisted weight loss program).
- **Asthma Clinic**—for patients diagnosed with Asthma (aimed at patient education and gaining of better control over Asthma).

JBN Medical Health Clinics are an innovative model of integrated health care delivery. Our multidisciplinary approach has created collaboration with kinesiologists, dietitians and pharmacists.

In addition to high quality physician care, patients receive personalized and detailed attention from other team members. This approach completes and balances medical care, providing better patient experience and improved results.

PUBLIC EDUCATION

We emphasize patient education through JBN Public Education Forums. These informal sessions are conducted on regular basis at Tansley Woods Community Centre (Walkers and Upper Middle). Please check our website or call 905-331.3982 for program updates. Admission is free and open to all interested in taking charge of their health.

CARDIAC DIAGNOSTICS

JBN provides a full range of non invasive cardiac diagnostic testing (ECG, Spirometry, Stress Test, Echocardiogram, Blood Pressure Monitoring, Holter/Loop Monitoring, Vascular Assessment). Tests are available at short notice. Abnormal results are reported rapidly and if necessary, the patient is looked after by a specialist in the clinic.
